

THE SPARK GAP

THE OFFICAL NEWSLETTER OF THE MID-STATE AMATEUR RADIO CLUB

VOL. 20, ISSUE 6

JUNE 2003

2003

Field Day is once again upon us and with in a few days it will be here. This year is somewhat different than in past years. Mid-State Amateur Radio Club is going to set up at a different location, Hendricks County in Avon.

MARC and the Hendricks County club will be located at the City Park near the Avon City building. Plans are to have many things going on that will be fun and family orientated. The Red Cross also plans to be there with some of their equipment and information for those who attend.

A fun time should be had by all that attend and the public exposure for Ham Radio will be exceptional. According to the Avon club there should be good attendance.

The MARC club meeting that will be held on Saturday June 21st at 8:00 AM will be a meeting you will want to attend. Final preparations for Field Day 2003 will be made then.

There is always a need for more radio operators to work the stations. Field Day is more than just a contest working for points. It is a time for Hams to get together have fun and also see how well their stations can work for 24 hours in remote locations. This also gives Hams a chance to let the public see for themselves what amateur radio is about and how it can serve the public during emergencies.

What a great combination!

Fire trucks, strawberries and ham radio. Several MARC members set up shop at the White River Township Fire Departments annual Strawberry Festival held Saturday June 14th.

Bob Wood-K8AGH, Chuck Mosier-KB9TEO, Ernest Clark-KB9SKI and Jack Parker-W8ISH wowed the crowd with amateur radio technology and demonstrations. Many other MARC members stopped by with an extra chair to help answer questions and enjoy the strawberry shortcake.

This was the eleventh year for the festival. Proceeds are used to purchase special rescue equipment not covered in the yearly budget.

The mini-field day operation featured HF radio, 2meter/70cm, APRS, SSTV, PSK31 and amateur satellite. All this was covered by a tent. Bob Wood-K8AGH brought a portable weather station which helped track the changing weather conditions during the weekend event. It also came in handy for wind speed and direction when LifeLine flew in for an automobile extrication and rescue demonstration. Several dozen people stopped by during the day to see what amateur radio had to offer.

The increased foot traffic to our tent resulted from a better location near the fire apparatus at the entrance of the festival. We shared our location with Tug Sutton and the Johnson County Emergency Management Agency. Our thanks to everyone who came to eat, chat and share the amateur radio experience with the public.

Sets up his well-equipped truck for the Strawberry Festival.

RADIO CLUB GARAGE SALE

It is a good time to clear our that closet, clean out the garage and tidy-up the basement. The second annual Mid-State Amateur Radio Club Garage Sale is almost here. The club needs your donations of used and/or new items for the garage sale.

Contact Carol Osborne at 535-3922 for more information.

The Garage Sale will take place on Friday and Saturday August 8 & 9, 10 AM to 9 AM.
Location: 149 Mooreland Drive, Whiteland, Indiana 46184

RE:Amateur Radio Spectrum Protection Act June 11,
2003 -

Today in Washington DC,
ARRL President Jim Haynie, W5JBP, testified on behalf of
House Resolution 713 "Amateur Radio Spectrum Protection
Act". If approved, the Amateur Radio Spectrum Protection
Act would amend the Communications Act to require the FCC
to provide "equivalent replacement spectrum" to Amateur
Radio if the FCC reallocates primary amateur allocations,
reduces any secondary amateur allocations, or makes
additional allocations within such bands that would
substantially reduce their utility to amateurs.

Haynie has said he's looking forward to the opportunity to
state the League's case. Haynie's appearance in support of
the legislation is considered critical to enhancing the
measure's credibility, and it marks a major step toward
getting HR 713 through Congress this year.

The most recent cosponsors to sign aboard HR 713 include
representatives Sam Farr (D-CA), Edolphus Towns (D-NY),
Sheila Jackson-Lee (D-TX), Steve Israel (D-NY), Roscoe
Bartlett (R-MD), Clay Shaw Jr (R-FL), John Duncan Jr (R-
TN), Dennis Rehberg (R-MT), David Price (D-NC), Gary Miller
(R-CA) and Bart Stupak (D-MI).

Indiana Representatives appear to be missing from the list
of co-sponsors. HR 713 is sponsored by Florida Republican
Michael Bilirakis, a subcommittee member. Idaho Republican
Michael Crapo has introduced an identical version of the
legislation, S 537, in the US Senate.

Haynie continues to encourage ARRL members to urge their
senators and representatives and to cosponsor the bills. A
sample letter is available on the ARRL Web site. Those
writing their lawmakers are asked to copy their
correspondence to the League via e-mail. Sample Letter:
<http://www.arrl.org/govrelations/arspa.html#sample>

=====

60 METER BAND OPENS JULY 1ST

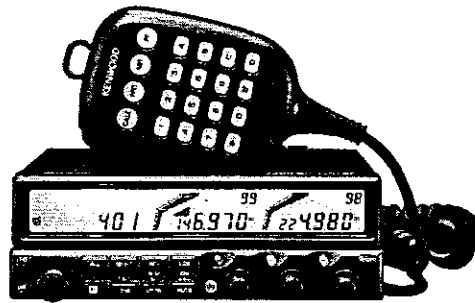

It has been almost a dozen years since a new band has opened to amateurs here in the US. The five 2.8 KHz channels for use by General, Advanced and Extra Class licensees can use upper sideband (USB) phone and limited to fifty watts.

The channels are as follows:

- | | | |
|---|-------|----------------------------|
| 1 | 5.332 | upper |
| 2 | 5.348 | upper |
| 3 | 5.368 | upper |
| 4 | 5.373 | upper |
| 5 | 5.405 | upper (shared with the UK) |

You are encouraged to keep a log of you contacts to see how well the band is doing propagation etc. This part of the spectrum may prove to be useful for it is generally quieter than some of the other bands in use. It will not be used for contesting due to its shared bases. It may be worth to drop in and see what is happening on this new part of the amateur spectrum.
